

2014-2020 INTERREG Europe Programme

Guidance Note – Letters of Support For partners based in Wales

All 2014-2020 INTERREG Europe projects need to be supported by the relevant organisation responsible for the particular policy area within the region. The relevant organisation may differ from country to country and if a letter of support is needed, the process for obtaining one may also differ.

The arrangement for the letters of support for organisations in Wales will be as follows:

- If the partner **is responsible** for the policy area which is the subject of the INTERREG Europe application, for example, this could be a Welsh Government Department or a Local Authority in Wales, the organisation will not be required to append a letter of support.
- If the partner is **not responsible** for the policy area then they will need a letter of support. If you are a partner in need of a letter of support, please contact the European Territorial Co-operation Unit by email to territorialcooperation@wales.gsi.gov.uk
